QR Code For Binding

Manual Setup Code : GZST8KMJYMIYGIODOEHFQQ  
Company Code : DM

4. Go to "CQ Key" and click "add an account".

(iOS)

(Android)

5. There are 2 ways to bind the account (A) Scan QR code or (B) add account manually. Wifi or Internet service is needed for the first time binding.
  - (A) Scan barcode: For iOS version, it will be able to scan the QR code directly.  
For Android version, it will request users to download Barcode Scanner+ and this scanner is required in order to scan the QR code.
  - (B) Add account manually: it will require user to input the binding key shown on the foreign stock website.

(iOS)

(Android)

6. After the QR code is scanned, the below information will pop up. Please click ok and bind the 2FA to the mobile device.

(iOS)

(Android)

7. The security code will be found in “CQ Key” after the binding procedure. A confirmation email or SMS will be sent.
8. Go to the foreign stock website, enter the security code and login.
